

THE TECH

VOL. XXVI. No. 38

BOSTON, MASS., FRIDAY, DECEMBER 21, 1906

PRICE THREE CENTS

PLAY AGAIN TONIGHT.

Tech Meets Strong Five from Worcester Polytechnic.

The strong Worcester Polytechnic basketball team will be the attraction at the Tech gym this evening in the last home game before the holidays. Tech's great game against Boston College last Monday evening gives promise of another victory tonight. However, the game will be a close one, as Worcester Tech is a much stronger opponent than Boston College. Captain Kinnear will probably be back in the game and his presence will undoubtedly strengthen the home team considerably.

Last year two games were played by these teams, each winning its home game. In the game at Worcester it was not until the second half that Worcester was assured of victory, the final score being 22 to 15. In the second game, which was close and hard fought, Tech won out by a large lead, 28 to 16. The home team this year is undoubtedly stronger than last year's team and if it can keep up the pace it set in the game last Monday will undoubtedly go through the season with a long list of victories.

MANDOLIN CLUB.

The Mandolin Club will assemble in the Boylston St. subway this evening at 7.30 P.M. to take a south-bound car to Brookline High School. The Club will render a few numbers from the Winter Concert programme, the occasion being the annual reception of the senior class of the High School. Messrs. Killion and Fales, whose duets made such an impression last Tuesday evening, will also contribute a number. The members of the Club have been invited to remain after the concert for the dance.

WALKER CLUB DINNER.

At the monthly dinner of the Walker Club held Wednesday evening at the Technology Club, Dean Burton, Professor Pearson, and Mr. Blachstein were the guests. Dean Burton spoke of his experiences in France, particularly during his last visit, and gave some interesting descriptions of student life in the French universities.

At a business meeting of the club before the Dean's address, L. H. King, '09, was elected sophomore member of the executive committee.

MECHANICAL ENGINEERS DINE.

The Mechanical Engineering Society held a most enthusiastic dinner last night at the Copley Square Hotel. This is the first dinner that has been given for years. About seventy-five men attended, Pres. Labbe presiding. Col. Albert Pope of the Pope Mfg. Co. was the principal speaker and was followed by Professors Lanza, Schwamb, Miller and Haven. After the dinner a pleasant smoker was held, and the men went home about ten.

The committee was composed of A. W. Bigelow, S. R. Miller, and R. A. Angus.

CHRISTMAS RECEPTION.

Invitation Extended to All Students Remaining Through the Holidays.

In accordance with the announcement made by President Pritchett at the last Convocation all Tech men who are in town are cordially invited to a reception at the Union on Christmas Eve. Mrs. William B. Rogers will receive, assisted by Mrs. Samuel J. Mixter, Mrs. Frank H. Rand, Mrs. Alfred E. Burton and Mrs. Dana P. Bartlett. Mrs. Pritchett will be unable to attend.

Members of the Faculty will also be present. Students will meet in an informal way from eight till ten o'clock. There will be a Christmas tree and souvenirs for the guests, and refreshments will be served. Besides this, an entertainment will be provided, and it is expected that songs will be sung. This custom of a Christmas Eve Reception has been observed since Dr. Pritchett has been President. It affords a delightful opportunity to meet members of the Faculty and their wives in a pleasant informal way.

PROFESSOR BATES GIVES READING.

About a hundred students of the Institute enjoyed a treat yesterday afternoon when Professor Bates read Dickens' "Christmas Carol" in 23 Walker. The reading was especially appropriate to the season, and the audience showed by their hearty applause that they thoroughly enjoyed the excellent interpretation given by Professor Bates.

M. I. T. A. A. TO MEET.

The Athletic Association will meet today at 1 P.M. in Huntington Hall for the purpose of electing an assistant track manager. There are three candidates, Sharp, Lawrence, and Keeney. Manager Tobin will announce the team's schedule.

COLLEGE NOTES.

The Columbia hockey team is to tour Canada during the Christmas holidays.

The Colorado universities and colleges will organize a state inter-collegiate association this winter.

The University of Minnesota basketball team has a game scheduled for the winter recess with the Columbia University team.

Two dual indoor track meets have been arranged for this winter between Chicago and Michigan. One will be held in Chicago and the other at Ann Arbor. Just how Chicago can hope to outscore Keene Fitzpatrick's bunch of stars is indeed a mystery.

Yale's hockey and basketball teams left Wednesday for their long Christmas trips, the basketball players to travel 3000 miles, the hockey team 1000. The hockey team will practise in New York till New Year's day, when they leave for Pittsburg, playing Cornell there Jan. 2, 3, and 4, and the Pittsburg Interscholastics on Jan. 5. The basketball team will be accompanied by Coach Lush.

"MARS AND ITS CANALS."

Interesting Book by Professor Lowell Attracts Much Attention.

Professor Lowell's new book on "Mars and its Canals," which has just been published by the MacMillan Company, is the fascinating record of twelve years of research into the conditions of another world. In this world which he explores the author finds changes that show it to be not a dead, but a living world, inviting investigation across space.

The volume treats of the interpretation of the observations on the planet which have been regularly carried on at the Lowell Observatory, Flagstaff, Arizona. It describes not only the observations, but the character of the scientific station which has made the observations possible. The romance connected with the establishing of such a post is second only to the study of the planet itself. As Professor Lowell says in the first chapter: "Astronomy demands abstraction of its devotee. He must abandon cities and forego plains. Only in places raised above and aloof from men can he profitably pursue his search; places where nature never meant him to dwell, and admonishes him of the fact by sundry hints of a more or less distressing character. To stand a mile and a half nearer the stars is not to stand immune."

Mr. Lowell is a non-resident professor at the Institute. After long residence in the East he established the Lowell Observatory at Flagstaff in 1894. Two years ago he was awarded the Janssen Medal of the French Astronomical Society for his researches on Mars. His other publications are: "The Soul of the Far East," "Occult Japan," "Mars," and two volumes of annals of the Lowell Observatory.

Y. M. C. A. MEETING.

At the regular meeting of the Tech Y. M. C. A. yesterday noon at Parish Hall of Trinity Church, Reverend A. A. Stockdale spoke on the definition of the word "Lost" as used in the Bible. We belong to the thing we love, he said. As we should love both God and man, so we should belong to both. If we become "conscious of an estrangement from God, then are we lost, for to be lost is to be spiritually separated from God."

There will be only two more meetings of the Y. M. C. A. this term, both of which Mr. Stockdale will conduct. His subjects will be the definition of New Testament words; on January 3d, "Saved;" on January 10th, "Faith." Mr. Gates, the general secretary, reported that nine student bible classes have been organized under the direction of the Y. M. C. A., and nearly one hundred and fifty men were enrolled last week.

Brown will have an ice hockey team again this year, despite the fact that it is no longer a member of the Intercollegiate Hockey League. Six of the seven men on Columbia's hockey team of 1906 are in college again, and striving to retain their old positions.

CALENDAR.

FRIDAY, DECEMBER 21.
1.00 P.M. M. I. T. A. A. meets in Huntington Hall.
1.30 P.M. Senior Class Meeting in 6 Lowell.
4.15 P.M. Glee Club Rehearsal at the Union.
7.45 P.M. Meeting of the Advisory Council on Athletics.
8.00 P.M. Basket Ball, Tech vs. Worcester Polytechnic.
8.00 P.M. Mandolin Club Concert at Brookline High School.

SATURDAY, DECEMBER 22.
1.00 P.M. Exercises of the Institute suspended.
MONDAY, DECEMBER 24.
8.00 P.M. Christmas Reception at the Union to all Tech men who do not go home for the Holidays.

TUESDAY, DECEMBER 25.
9.00 A.M. Exercises of the Institute resumed.

FACULTY NOTICE.

First Year.—First year students are expected to take at the end of the present term all entrance examinations in which they have not already clear records, with the following exceptions:

1. Special students taking no work dependent on such entrance subjects. Such students if they desire to become regular may take remaining entrance examinations in June or September, this applying particularly to entrance French, German, and Physics.

2. Students who are now making up entrance French and German by taking the elementary courses.

3. Students entitled to excuse from particular entrance conditions on the basis of good term work. This applies to conditions in entrance Algebra, English, French, German, and Plane Geometry, and students will be notified if excuse can be given.

NOTICES.

Banjo Club.—The next rehearsal of the Banjo Club will be on Monday, December 31, at 4 P.M.

Prom Committee.—There will be a meeting of the Junior Prom Committee in the Trophy Room Tuesday, January 1, at 4 P.M.

Ohio Club.—There will be a dinner at the Ohio State Club at the Tech Union, Wednesday, Jan. 9, 1907. Full attendance is desired.

Senior Class Meeting.—The Senior Class meeting scheduled for yesterday will be held today at 1.30 P.M. in 6 Lowell. The meeting will be extremely important.

Mandolin Club.—The following men will be taken on the Gloucester trip Thursday, January 3: Swett, Griswold, Price, Ames, Hall, Nauss, Richardson, Scharff, Childs, and Thompson. A rehearsal will be held at the regular time and place Monday, December 31, at which all men going to Gloucester must be present. If for any reason, any of the above cannot attend the concert or the rehearsal, they should leave explanations at the Cage for A. H. Thompson, '08 at once, so that their places may be filled.

THE TECH

Published every Monday, Wednesday, and Friday during the college year (from September to June), by students of the Massachusetts Institute of Technology.

Entered as second-class matter October 6, 1904, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

The Cambridge police are trying to suppress Harvard "beer night," but the police at Station 16 do not know enough German to understand what the Tech "Kommers" mean.—*Boston Globe*.

A Merry Christmas and a Happy New Year to you all! May your vacation be one continued round of pleasure and recreation.

Merry Xmas. We hope you will be able to enter into the spirit of the season and make the best of your week, which will doubtless seem all too short. Hang up your stockings as you used to do, sit up and watch for Santa Claus Christmas Eve (we know he's coming), skate, slide, sleigh, and dance as much as you can, have a bully good time for the whole week, and come back bright and happy on the thirty-first ready to tackle mid-years with a spirit that can leave no doubt as to the result.

It is qualities that fit a man for a life of usefulness, not the mental possession of facts. The school that best helps to form Quality character, not the one Versus that imparts the most Facts. information, is the college the future will demand. I do not know of a single college or university in the world that focuses on qualities. I do not know of a university in America, excepting Tuskegee, that prohibits the use of tobacco among its students. At Harvard, Yale, Dartmouth, Columbia, and Princeton, cigarettes are optional, but a stranger, seeing the devotion to them, would surely suppose the practice of cigarette smoking was compulsory. The boy who does not acquire the tobacco habit at college is regarded as eccentric. Many of the professors teach the cigarette habit by example. At

all of our great colleges, gymnasium work is optional. Instead of physical culture there is athletics, and those who need the gymnasium most are ashamed to be seen there.

How would the scientific cultivation of these do?

Bodily Qualities: Health of digestion, circulation, breathing, manual skill, vocal speech, and ease in handling all muscles.

Mental Qualities: Painstaking, patience, decision, perseverance, courage, following directions, tact, concentration, insight, observation, mental activity, accuracy, and memory.

Moral Qualities: Putting oneself in another's place, or thoughtfulness for others, which includes kindness, courtesy, good cheer, honesty, fidelity to a promise, self-control, self-reliance, and self-respect.

If you knew of a college that made a specialty of qualities, where the teachers were persons of quality, would you not send your boy there? And if you would send your boy to such a college, would not others do so, too? These things being true, will we not as a people soon decide to pay teachers enough to secure quality?—which is not presuming to say we have none now. Would not such a school as this evolve through the law of supply and demand a college that approximated the ideal?—Elbert Hubbard in January *Cosmopolitan*.

**TREMONT THEATRE.**

No greater success has been chronicled in Boston in many years than the production of the new musical comedy, "Coming Thro' the Rye," which was seen for the first time at the Tremont Theatre, Monday night—from the beginning to the final curtain, the performance was wholly delightful, and encores and curtain calls were freely and enthusiastically bestowed upon the many charming musical numbers and upon the clever work of the people in the company. The story of "Coming Thro' the Rye" is delightfully original, and it contains dialogue of the most brilliantly witty kind. The music is of the catchy, "jingling" sort which is quickly memorized, and much of it is bound to become very popular. There will be a special matinee of "Coming Thro' the Rye" Christmas, and regular Wednesday and Saturday matinees will be given during the three weeks engagement.

MAJESTIC THEATRE.

Beginning Monday, Dec. 24, at the Majestic Theatre Bertha Kalich under the direction of Harrison

Grey Fiske, will appear in Langdon Mitchell's translation of Jacob Cordin's Yiddish drama "The Kreutzer Sonata." The play deals with Jewish life in Russia and America and is said to be strikingly realistic in its presentation of Jewish conditions. Madam Kalich who will be remembered for her wonderful portrayal in "Monna Vanna" last season, has won in the role of Miriam Friedlander a success which has duplicated the wonderful triumph of the play when it was produced in Yiddish at her own theatre in New York City. "The Kreutzer Sonata" was her greatest success during her career as the leading Yiddish actress in New York City. Mr. Riske has gathered a notable company to support his star and the stage environment is in every particular of the most artistic quality. There will be an extra matinee on Christmas Day and the regular Saturday matinees during Madame Kalich's engagement.

J. O. Zubia, with 31 miles 3460 feet to his credit, leads at present in the contest for the Kistler cup at Pennsylvania, offered for the greatest number of miles swam in the varsity tank this season.

PARK THEATRE

Clara Bloodgood will have only one more week of her engagement at the Park Theatre where "The Truth" has proved one of the most brilliant of plays recently given to the American stage by Clyde Fitch. He has been especially fortunate in fitting the star with the sort of a character that she plays so well and Charles Frohman has done the rest by providing an exceptionally strong supporting company for the production.

Professor Andrew N. Grabau of the department of geology at Columbia University has been awarded the first Walker prize, given each year by the Institute for the best memoir on a scientific subject. Professor Grabau submitted an essay on "The Interpretation of Sedimentary Overlap."
